

HELP WANTED

Dexter Utility District is accepting applications for a Water and Wastewater systems laborer position. This is an entry level position consisting of grounds maintenance of District properties and brush and vegetation control of the wastewater treatment plant spray fields, with other duties as assigned by the superintendent. This is a year-round, full-time position. Applicant must have a valid driver's license, basic mechanical ability and a high school diploma or equivalent. Pay and a generous benefit package are dependent on qualifications. Position will be filled when qualified person is found. This position could lead to advancement with water and wastewater licensing for the right applicant. Application forms may be found at www.dexterutilitydistrict.org or by calling our office at 207-924-7367. We are an equal opportunity employer.
